

IEEE LTSC Annual Meeting

The Annual IEEE LTSC Meeting will be held March 22, 2010 through March 24, 2010 in Orlando, FL. in conjunction with The ELearning Guild's Learning Solutions Conference & Expo. All those attending this meeting should seriously consider attending our host's conference. This conference offers a great opportunity to listen to and interact with a large number of people who ultimately use LTSC standards, as well as to see what people are doing and thinking about in the eLearning community. For conference and housing information please visit

Agenda March 2010 Meeting IEEE/LTSC

Working Group 20 – Competency – March 22, 2010 9:00AM

9h00: Welcome

9h15: Introduction + Status overview

- Competency Landscape Europe/US
- Different standards groups on competencies (EU/US)
- Cooperation so far + emerging needs

11h00: Competency map / competency Profile Project, Part I

- Draft proposal
- Discussion

12h30: Lunch

13h30: Competency map / competency Profile Project, Part II

- Draft proposal
- Discussion

15h00: Semantic model for competency related data management

- Draft proposal
- Discussion

17h00: Next steps + Wrap-up

Working Group 12 – Learning Object Metadata – March 23, 2010 9:00AM – 12:00PM

We will solicit comments and feedback on current use of LOM in order to help us decide what to do next. A draft message to collect this input from various communities is available

at <http://ariadne.cs.kuleuven.be/mediawiki2/index.php/LomWhatNext>. Everybody is asked to comment, edit or provide other feedback, through this mailing list or on the wiki.

In the week of 22 March, we will have a face-to-face LOM working group meeting, co-located with other **LTSC** Working Group meetings and the Learning Solutions conference

(<http://www.learningsolutionsmag.com/content/1420/learning-solutions->

conference-2010-home). At this meeting, we will decide how we want to proceed with LOM:

- Maybe an update that we can finalize in 2010
- Maybe a longer term activity
- Maybe something else.

Working Group 11 – Computer Managed Instruction – March 23, 2010 1:00 PM
March 24, 2010 9:00AM – 12:00PM

- 1) Technical scope of 1484.11 series of standards
- 2) Maintain, update or revise 1484.11 functionality?
- 3) IEEE LTSC WG 11 and LETSI RTWS Project collaboration
- 4) IEEE LTSC WG 11 and IEEE-ISO PSDO Agreement

LTCS General Meeting – March 24, 2010 – 1:00PM – 5:00PM

- Working Group Reviews
- LTSC Liaisons
- The Road Ahead
- Treasurers Report
- New Business
