April 16, 2010

### **Attendees:**

Fred Banks  
Avron Barr  
Jono Poltrack  
Tyde Richards (convener)  
Chris Sawwa  
Crispin Weston

### **Discussions:**

General discussion of issues related to PAR submission and future work plan. Interest in PAR submissions for Runtime Web service and revision/replacement for 1484.11.3 XML binding of data model. Discussion of whether PAR for 1484.11.1 should be a corrigenda (corrections/no new features) or amendment (new features). Concern that premature to add new features due to lack of implementation grounding but no resolutions. Intent for next begin work on PAR for 1484.11.1 and collect material to begin work on draft document.
