

IEEE LTSC CMI Meeting Minutes

April 30, 2010

Attendees:

Avron Barr
Scott Lewis
Frank Polster
Jono Poltrack
Tyde Richards (convener)
Chris Saawa
Schawn Thropp
Crispin Weston

Discussions:

Discussion carrying over from CMI/RTWS telecon on the need for standardization and ways to accelerate the standardization process. An issue is that the LETSI process encourages agile development and a need for deliverables to remain fluid for quite a while. This makes it difficult to carve out pieces to be standardized. Question about the value of standardizing new work versus standardizing "heritage" material from the cmi/scorm tradition.

Discussion of PAR for 1484.11.1 corrigendum. Review of draft corrigendum material from Jono. Tyde will submit PAR for corrigendum to IEEE SA. Scott will create draft document with proper structure from Jono's material

Next Meeting:

7 May 2010
11am - 12pm EST

Skype phone: +9900827049304412
US 201-793-9022 + access code 9304412
